**RC Flight Instruction ends for 2012:**

Lead instructor Tom Solinski reminds us that the new schedule for RC flight instruction does not depend on the start and end dates of Daylight Savings Time since in recent years Daylight Savings Time dates have often changed. Thursday evening flight instruction ended September 30.

**TORKS members' opportunity:**

Tom Solinski reported that he has volunteered to assist a Harding High School class which is preparing to enter Speedfest, a statewide RC contest. The purpose of Speedfest is to promote learning about aeronautics among high school youth. The class meets once a week for one hour at the school. Currently they are in the process of building their contest entry. Tom said that he would appreciate TORKS members, **especially pilots**, help these young people and their teacher prepare for Speedfest. For more detailed information please call Tom at 414-6947.

Below I've included some photos from the October work day and burger burn. Thanks to Linda Grennan for these photos:

Here's hoping everyone has a pleasant holiday season. I'm looking forward to our next meeting on December 4<sup>th</sup> and to the Christmas dinner and party on December 14<sup>th</sup>.

Fly safely and enjoy!

Respectfully, John Graham, Secretary
